Fly or drive in to Montana's largest city and enjoy what Billings has to offer. Venture across the Beartooth Highway and through the most beautiful entrance into Yellowstone – the nation's first national park. The Beartooth Highway is less than an hour from Billings and provides breathtaking vistas from start to finish. It's open Memorial Day through Labor Day, weather permitting.

Don't forget your charger as you may need to use it before you even reach the Park with all the photos you'll take. The drive itself will take a few hours, depending on how quickly you let the stunning views pass you by. Plan to enjoy this drive as part of your national park experience.
